Excess Water Charges and Deposits.

page 6

With reference to your notice No.7315/35, dated the 5th November 1935, inviting suggestions or objections in regard to certain additions and alterations to the notification on the above subject, I am desired to say that in the absence of a complete copy of the proceedings, it is presumed that the intention is merely to codify the resolutions already passed by the Commission on the subject.-

2. No less than seven notifications have been quoted in the preamble and one more will be added thereto as a result of the notice now under consideration. This would appear to show that the question has not been tackled in earnest as will be seen for instance from the total saving of Re.0-1-3 and Re.0-1-8 respectively in the case large consumers of 10,500 and 15,000 gallons of excess water.

3. As regards the codification of the Excess Water Deposits my Committee can only reiterate the protest already made in regard to its levy, not only by this Association but by the ratepayers in general, as voiced persistently in the press at the time.

4. Incidentally, it may be observed that the citing unnecessarily, one would think - of a number of notifications in the preamble only causes confusion. For instance, the notification now under consideration was republished (with all previous amendments) under notification No.5299/33, dated the 13th July 1933. It would therefore appear that this is the notification which is now in force and which requires amending, all the preceding ones having already been embodied in it.

W A T E R D E P O S I T.

With reference to your advertisement in the Bangalore Daily Post, inviting objection on the above subject.

I herewith attach a copy of my letter dated the 20th November 1934, to the address of Mr. L. J. Mac Iver, protesting against the payment of the amount for the simple reason, that I am a landlord, paying an annual tax of about Rs.80/- on my house in Richards Town, and there is no reason why the Municipality should be afraid that I will not pay the tax on excess water used by me. I would quite understand if the Municipality called upon a tenant, who is not a landlord to pay the tax, in order to safeguard the Municipal revenues.

The reasons and objects of the Bye-law is to see that the Municipality does not suffer any loss by a tenant failing to pay the tax on excess water used by him.

I claim a different treatment from an ordinary servant, because I am a landlord, as will be seen from the attached letter.

Trusting you will be pleased to give this matter a favourable consideration.

Charges for water deposit.

With reference to your Memo No.5559/34 dated the 15th November 1934, I herewith remit the sum of Rs.3/- as requested and to state that I am paying the amount under protest, as I still maintain, that as a landlord and a tenant I claim the privilege as a landlord, who lives in his own house.

Perhaps the present Bye-law does not cover my case, I therefore request that you would be so good as to place my case before the Municipal Commission at their next monthly meeting and obtain their decision in the matter and amend the Bye-law to cover my case.

(IV)

With reference to para 3 of your letter No. F.135-36
R.O.II

dated the 29th February 1936, I have the honour to inform you that the legality of the levy of Excess Water Deposits has been questioned by means of a Civil Suit filed by one Mr. E. A. Webster and the matter is pending disposal in the Civil Court. The Municipal Lawyer, to whom the matter was referred for opinion on a reference made by the Southern Division Ratepayers' Association, has written to say that his opinion would be of no use at present and has suggested that the decision of the Court may be awaited. I shall inform you of the Court's decision in due course.

I have the honour to be,

Sir,

Your most obedient servant,

Mac Iver
